MEETING SUMMARY: The HTA representative paid a call to discuss the
Consumer Product Safety Enhancement Act,
specifically the legislative hearing taking place on
4/29/10 in the House of Representatives Energy and
Commerce Committee's Commerce, Trade, and
Consumer Protection Subcommittee. While HTA
expressed appreciation for the efforts of the CPSC to
accommodate small businesses with respect to the
testing requirements of the Consumer Product Safety
Improvement Act, the Association would prefer an
exemption for small manufacturers such as their
members. Commissioner Adler expressed his
appreciation for HTA's efforts to work with the
Commission and renewed his request for further
comments from HTA members regarding both the
CPSEA and any future related Commission rules.
