STATEMENT OF WORK

NATIONAL ELECTRONIC INJURY SURVEILLANCE SYSTEM (NEISS)

1. DESCRIPTION OF SERVICES

The Contractor shall provide the Consumer Product Safety Commission (CPSC) with National Electronic Injury Surveillance System (NEISS) reports as specified in the contract line items and in accordance with the Performance Work Statement. These reports shall be coded and transmitted to CPSC via an encrypted personal computer supplied by the Government.

2. SERVICES AND PRICES

The Contractor shall provide pricing in accordance with Block 20, Schedule of Supplies/Services for all contract line item numbers.

3. CONTRACT TYPE

This is a fixed price, not to exceed contract for injury surveillance reports. It includes a base period and option years as noted on form 1449.

4. BACKGROUND

- A. The U.S. Consumer Product Safety Commission (CPSC) administers the Consumer Product Safety Act, the Flammable Fabrics Act, the Federal Hazardous Substances Act, the Poison Prevention Packaging Act, the Refrigerator Safety Act, and the Consumer Product Safety Improvement Act.
- B. The primary purpose of these acts is to protect the public against unreasonable risks of injury or death associated with consumer products. The Consumer Product Safety Act specifically states that the Commission will conduct research, studies, and investigations on the safety of consumer products and offer training in product safety investigation and test methods.
- C. The Commission collects information on injuries associated with consumer products by several data systems, including the National Electronic Injury Surveillance System (NEISS). This system consists of statistically selected hospitals that report information on product-associated emergency department cases to the Commission on a daily basis. Some hospitals use an employee to identify and code the relevant information and to transmit it electronically to CPSC via an encrypted personal computer provided by CPSC. Other hospitals elect to allow a third party to identify, code, and transmit the data. The data collected from the hospitals are compiled and provided to Commission analysts to identify consumer products that are associated with serious and/or prevalent injuries that are treated in hospital emergency departments. Since these data are collected from statistically selected hospitals, estimates can be projected to the national population as to the number and type of injuries involving individual consumer products. Manufacturers, distributors, retailers and consumers, as well as the Commission and other government agencies, use such data in de-identified form to assess the safety of consumer products, and to determine which products require further in-depth study to identify specific hazard patterns that may be associated with them.

D. When a product is selected for more in-depth study, the Commission supplements the basic emergency department data collected through the NEISS with a follow-up inquiry on selected injuries. In such a case, the victim's name, address and telephone number is obtained by the Commission from the hospital. The victim (or parent of child victim) is contacted and, with his/her consent, information about the product's use and causal factors is obtained. (Patient identification is destroyed by the Commission when the inquiry is completed.) By combining this information with the basic emergency department surveillance data, the Commission can better understand consumer product-related accidental injuries and evaluate specific hazard and injury patterns together with potential corrective actions.

E. The Consumer Product Safety Act provides that "No person shall be subject to civil liability to any person (other than the Commission or the United States) for disclosing information at the request of the Commission." 15 U.S.C. 2076(d).

5. OBJECTIVES

To provide the Commission with timely reports of consumer product-related injuries/deaths from the statistically selected hospitals who comprise the National Electronic Injury Surveillance System (NEISS). The reports, which provide the Commission the means for generating injury estimates of emergency visits for the United States and its territories, are used by the Commission:

- a) to study, analyze and investigate injuries associated with consumer products;
- b) to evaluate the effectiveness of regulations and standards, voluntary and mandatory, and other Commission actions (education programs, recalls, etc.), and
- c) to ascertain trends concerning new hazard/injury patterns.

6. PERFORMANCE WORK STATEMENT

Independently, and not as an agent of the U.S. Consumer Product Safety Commission (CPSC), the Contractor shall provide the personnel and facilities, except as provided in Section 11., GOVERNMENT FURNISHED MATERIALS/EQUIPMENT, necessary to electronically transmit, in a timely manner not to exceed 5 days, data on specified cases treated in the Contractor's emergency department.

A. NEISS SURVEILLANCED REPORTS

1. The Contractor shall establish a control system within the hospital to ensure that all consumer product-related physical injuries, injuries resulting in death, and dead-on-arrival cases, treated or otherwise processed by the hospital as emergency cases, will be reported to CPSC in the detail specified herein.
2. The Contractor shall review the hospital emergency case records in a timely manner, not to exceed 5 days, and code all "in-scope" cases as defined by the NEISS Coding Manual provided by the Government, and other categories of cases that CPSC may add on behalf of other Federal agencies.

3. The Contractor shall enter the coded information from the "in-scope" emergency department(s) cases to CPSC in a timely manner, not to exceed 5 days, into a personal computer. Transmission shall be via an encrypted personal computer supplied by CPSC and in accordance with the procedures specified by the CPSC. CPSC will provide the training and guidance on how to enter the data.
4. When the Contractor is notified by CPSC, by telephone or personal computer, that a specific transmitted case is one of the occasional cases selected for a follow-up inquiry, the Contractor shall supply the name, address and telephone number of the patient to the CPSC representative if the hospital allows such information to be supplied. No additional payment will be made to the Contractor for supplying this information. Follow-up inquiries will be performed by telephone or in person by representatives of CPSC or other Federal agencies. Such inquiries will only be performed on a small fraction of the Contractor's reported injury cases, i.e., approximately 1%. Patient identification information provided to CPSC will only be supplied to trained interviewers to permit them to gather additional etiologic or epidemiologic data about selected cases from the patient, relatives, or other individuals who might be aware of the detailed circumstances surrounding an injury. CPSC will keep the information as to identity of the victim confidential and remove patient identification information from reports and documents maintained by CPSC. CPSC will not supply patient identification information to other agencies without prior patient consent.

5. SPECIAL SURVEY REPORTS

CPSC may, from time to time, request the Contractor to temporarily provide additional information beyond that specified in the NEISS Coding Manual, (e.g., approximately 2 weeks before and after July 4th, CPSC requests the specific type of fireworks involved be noted in the narrative) in support of a special survey. Not more than six (6) special surveys will be conducted by CPSC during a one-year period. Cases identified as part of special surveys will not constitute more than 5 percent of the total product-related cases to be reported by the Contractor during the performance period. Instructions pertaining to each special survey will be sent to the Contractor approximately two (2) weeks in advance of each survey. Patient identification will not be required except for occasional cases selected for a follow-up inquiry as described in 6.A.4. CPSC will reimburse the Contractor for these special survey reports at the same price as regular Surveillance Reports.

6. ALL TRAUMA REPORTING

In order to provide information on ALL trauma injury cases seen/treated in the emergency department, the definition of in-scope cases is hereby broadened (see 6.A.2.). The Contractor shall report ALL trauma injury cases seen/treated in the emergency department, as described in the attached sheet entitled "Expanded National Electronic Injury Surveillance System (NEISS) Reporting Rule".

B. NEISS SUPPLEMENTAL/SPECIAL STUDY REPORTS

1. The Commission may enter into formalized agreements with other Federal agencies to collect and assemble information through the NEISS to carry out special inquiries on injuries that would be of particular interest to the other agency. In these instances, the definition of in-scope cases may be broadened and the Contractor shall code and transmit additional cases in accordance with additional coding instructions to be issued by the CPSC Contracting Officer Representative (COR).
2. Such additional cases shall contain the same data elements as required in Section 6.A., NEISS Surveillance Reports, but these reports may also require some additional data elements, e.g., symptoms, treatment, time of incident. The reporting of these additional data elements in a "2nd screen" will require an estimated 75% more time per case than NEISS Surveillance Reports.

C. ORIENTATION AND TRAINING

- a. CPSC will provide NEISS orientation and training to all involved Contractor personnel. CPSC will also provide technical instructions on case selection, coding, and reporting. The Contractor shall make available his/her personnel for basic training not to exceed 32 hours immediately after contract award and as personnel are replaced. This training will be provided at a site within the geographical area covered by the Contractor.
- b. The personnel responsible for coding and transmitting may be required to attend brief training seminars at a location other than their geographical area. Since these training seminars are designed to enhance the NEISS coder's reporting knowledge and skill, exemption from attendance will only be permitted for health or other significant reasons. Prior to such training seminars, the Contractor shall be notified in advance with specific details. CPSC will reimburse the Contractor for actual travel costs not to exceed those specified in the Federal Travel Regulations.
- c. NEISS Coder Meeting

The Contractor/NEISS coder shall attend a training meeting covering case coding procedures and other NEISS/All Trauma reporting activities.

The NEISS Coder Meeting will be held at or near CPSC in Montgomery County, Maryland at a location and dates to be determined. The meeting will be for 2 consecutive days sometime between March-August, 2017. Lodging will be provided at a hotel to be determined.

- (1) Travel Costs. Airfare or train tickets shall be obtained by the Contractor. All training and travel costs shall be reimbursed in accordance with the following provisions and the Federal Travel Regulations:
 - a) Total expenditures for domestic travel and training (salary of one attendee) shall not exceed the dollar values specified in the contract modification without the prior written approval of the Contracting Officer.

- b) The cost of travel by privately-owned automobile shall be reimbursed at the rate established by the Federal Travel Regulations (<http://www.gsa.gov/portal/category/26429>). Such reimbursement, however, shall not exceed the otherwise allowable comparative cost of travel by common carrier.
- c) Miscellaneous travel expenses (i.e., parking fees, taxi fare, tolls, etc.) shall be reimbursed by CPSC. Reimbursement receipts **MUST** be presented for ground transportation to and from airports for any amount over \$75.00, other than privately-owned vehicle (see paragraph b above). However, a receipt for all expenditures is advisable.
- d) Reasonable actual costs of meals and incidental expenditures (M&IE) shall be reimbursed at a limit of \$69.00 per full day, as established by the Federal Travel Regulations. The first and last day of travel is paid at three quarters (3/4ths) of the rate (\$51.75 per day). The website that addresses these rates is <http://www.gsa.gov/portal/category/100120>.
- e) Domestic travel shall be undertaken by the mode and class of service most advantageous to the Government. This will normally require that the Contractor travel in coach accommodations.
- f) Hotel accommodations will be provided by CPSC at no cost to the Contractor at a hotel to be determined. Incidental expenditures, i.e., hotel telephone calls, room service, laundry, etc. shall be paid by the travelers.
- g) All air or train travel arrangements (if applicable) and airline or train tickets shall be made and purchased by the Contractor. The cost of the airline or train tickets will be reimbursed by CPSC to the Contractor.
- h) The CPSC Contract Officer Representative will forward hotel arrangements, meeting location, and meeting dates to the Contractor as soon as they are available.

D. PERIODIC MEETINGS

The Contractor staff assigned to this contract shall arrange periodic meetings, at least quarterly, with hospital emergency department and other staff involved with the injury surveillance activity in order to promote effective injury reporting and awareness of product safety issues. Such meetings shall be planned and implemented in coordination with the hospital administration.

E. CONTRACTOR PERSONNEL

1. The Contractor shall be responsible for the continued and timely reporting of data as described in this document. Toward this end, the Contractor shall provide for back-up personnel to assume the function of NEISS reporting in the absence of the Contractor's regular designated personnel.

2. By performance of this agreement, the Contractor agrees that the Hospital has the right to approve or disapprove of the CPSC representative.

F. PERSONAL COMPUTER INSTALLATION

CPSC will provide the Contractor with an encrypted personal computer. If necessary, the Contractor shall arrange with local companies for the services or equipment specified by the CPSC Project Officer for connecting the computer to the internet. CPSC will reimburse the Contractor for the cost of installing or maintaining such services, if not already installed.

G. MONTHLY RECURRING COMMUNICATION CHARGES

The encrypted personal computer can be connected to existing internet service. If the Contractor and CPSC jointly agree that it is necessary to install a new service for this purpose, then CPSC will reimburse the Contractor for the actual monthly recurring charges.

H. SUPPLIES AND REPAIRS TO PERSONAL COMPUTER

- a. The Contractor shall contact CPSC for all necessary supplies and repairs to the personal computer. The Contractor will not be reimbursed for supplies and repairs acquired at the Contractor's own expense from private concerns unless the Contracting Officer approves such purchases or services in advance.
- b. If necessary, the Contractor may be required to package and ship the computer to a designated place for repairs. In such an event, CPSC will provide a replacement computer and pay for packaging materials and shipping costs at no expense to the Contractor.

7. PERIOD OF PERFORMANCE

Base plus option years as noted on form 1449

8. PERFORMANCE ASSESSMENTS, PERFORMANCE STANDARDS AND INCENTIVES

A. MINIMUM STANDARDS - The Contractor shall meet the following standards:

1. Average lag between treatment and collection date shall not exceed five (5) days. Adjustment may be made for record access delay if confirmed and acceptable to CPSC.
2. Percent of cases with error messages shall not exceed 5%.
3. All treatment dates shall be accounted for with adequate number of cases reported or message that no in-scope cases were found.

B. OUTSTANDING STANDARDS - Outstanding performance is defined as meeting all of the following standards (for cases reported) for each month:

SEAT BELT USE

In an effort to reduce deaths and injuries resulting from motor vehicle accidents, President Clinton issued Executive Order 13043 requiring the use of seat belts by federal employees while on official government business. The Executive Order also encourages federal contractors, subcontractors, and grantees to adopt and enforce on-the-job seat belt policies and programs for their employees when operating government-owned or leased vehicles, company-owned, rented, or personally-owned vehicles.

52.217-08 OPTION TO EXTEND SERVICES (Nov 1999)

The Government may require continued performance of any services at the rates specified in the contract. - (a) The Government may extend the term of this contract by written notice to the Contractor within fifteen (15) days; provided that the Government gives the Contractor a preliminary written notice of its intent to extend at least thirty (30) days before the contract

- (c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed 5 years.

52.232-18 AVAILABILITY OF FUNDS (Apr 1984)

The Government's obligation under this contract is contingent upon the availability of appropriated funds from which payment for contract purposes can be made. No legal liability on the part of the Government for any payment may arise until funds are made available to the Contracting Officer for this contract and until the Contractor receives notice of such availability, to be confirmed in writing by the Contracting Officer.

The Government must exercise its post-acceptance rights--

(1) Within a reasonable time after the defect was discovered or should have been discovered; and

(1) Unless exempted by an addendum to this contract, the Contractor is responsible during performance and through final payment of any contract for the accuracy and completeness of the data within the SAM database, and for any liability resulting from the Government's reliance on inaccurate or incomplete data. To remain registered in the SAM database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the SAM database to ensure it is current, accurate and complete. Updating information in the SAM does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(2) (i) If a Contractor has legally changed its business name, "doing business as" name, or division name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in FAR subpart 42.12, the Contractor shall provide the responsible Contracting Officer a minimum of one business day's written notification of its intention to (A) change the name in the SAM database; (B) comply with the requirements of subpart 42.12; and (C) agree in writing to the timeline and procedures specified by the responsible Contracting Officer. Assignees shall be separately registered in the SAM database. Information provided to the Contractor's SAM record that indicates payments, including those made by EFT, to an ultimate recipient other than that Contractor will be considered to be incorrect information within the meaning of the "Suspension of payment" paragraph of the EFT clause of this contract.

(u) Unauthorized Obligations

(1) Except as stated in paragraph (u)(2) of this clause, when any supply or service acquired under this contract is subject to any End User License Agreement (EULA), Terms of Service (TOS), or similar legal instrument or agreement, that includes any clause requiring the Government to indemnify the Contractor or any person or entity for damages, costs, fees, or any other loss or liability that would create an Anti-Deficiency Act violation (31 U.S.C. 1341), the following shall govern:

(i) Any such clause is unenforceable against the Government.

(ii) Neither the Government nor any Government authorized end user shall be deemed to have agreed to such clause by virtue of it appearing in the EULA, TOS, or similar legal instrument or agreement. If the EULA, TOS, or similar legal instrument or agreement is invoked through an "I agree" click box or other comparable mechanism (e.g., "click-wrap" or "browse-wrap" agreements), execution does not bind the Government or any Government authorized end user to such clause.

(iii) Any such clause is deemed to be stricken from the EULA, TOS, or similar legal instrument or agreement.

(2) Paragraph (u)(1) of this clause does not apply to indemnification by the Government that is expressly authorized by statute and specifically authorized under applicable agency regulations and procedures.

(v) Incorporation by reference. The Contractor's representations and certifications, including those completed electronically via the System for Award Management (SAM), are incorporated by reference into the contract.
