

## **LOG OF MEETING**

### **DIRECTORATE FOR ENGINEERING SCIENCES**

**SUBJECT:** ASTM F15.58 WK70724 Commercial Electric-Powered Scooters for Adults Working Group Meeting

**DATE OF MEETINGS:** December 07, 2020

**LOCATION:** Teleconference

**LOG ENTRY SOURCE:** Lawrence Mella

**COMMISSION ATTENDEE(S):** Lawrence Mella

**NON-COMMISSION ATTENDEES:** Contact ASTM for attendee list

#### **SUMMARY OF MEETING:**

Background: ASTM WK70724 is a draft new voluntary standard for commercial electric-powered scooters for adults. It was formed in January 2020 and CPSC staff are active participants of this task group. A working group within the task group was formed to address hazardous substances regarding e-scooters. In the previous meeting, the group discussed referencing California's Proposition 65 and the Federal Hazardous Substance Act.

Activity: The group discussed paint and coatings on e-scooters due to the expectation that some e-scooters are thrown into waterways. Additionally, the group believes there should be collaboration with the electrical team to discuss the battery coverings water resistance to prevent battery water exposure in the event the e-scooter is submerged in water.

Next Steps: The ASTM manager will look for paint and coating standards to provide the group to review. CPSC staff will review the reference documents.
