SUMMARY OF MEETING:

ASTM Subcommittee F08.22 members convened for an online meeting on November, 29, 2018. The meeting was scheduled for one hour.

Attendees discussed the status of available background and data on tents and related products. The group will review data from the USA and Canada as well as data from other countries, as it becomes available. For the balance of the online meeting, attendees reviewed possible product definitions and scope. There was some discussion on toy tents compared to camping tents intended for children. The group reviewed and discussed some proposed provisions and requirements that might be considered for an initial draft method.

The discussions will resume at a future meeting. Notifications will be provided once a date is determined.
