SUMMARY OF MEETING:

The teleconference was arranged in order for Task Group (TG) Leads to prepare for the subcommittee meeting on 10/21/19. Rick Rosati, subcommittee chair, led the meeting. Celestine Kish gave a brief overview of the staff's supplemental notice of proposed rulemaking briefing package that was submitted to the Commission on 10/16/19. The group decided that Ms. Kish will present a similar summary of the package to the subcommittee to start the meeting. The group decided that no task group reports are needed because the package essentially makes the task group work obsolete. The agenda for the meeting will be adjusted to accommodate these changes. The meeting adjourned.
