

**LOG OF MEETING
DIRECTORATE FOR ENGINEERING SCIENCES**

SUBJECT: Meeting of the ASTM Play Yard Ad Hoc Language Task Group Meeting

DATE OF MEETING: 25 July 2019

PLACE OF MEETING: Virtual (teleconference)

LOG ENTRY SOURCE: Hope Nesteruk (ESMC)

COMMISSION ATTENDEES: Hope Nesteruk (ESMC), Tim Smith (ESHF), and Suad Wanna-Nakamura (HSPP)

NON-COMMISSION ATTENDEES: Contact ASTM for attendee list.

SUMMARY OF MEETING:

The purpose of the meeting was to continue to discuss revising the warning section of ASTM F406 to be consistent with the ad hoc recommendations for the warning sections of standards.

Topics of discussion included:

- How to add a statement about the sizing of replacement mattresses without increasing the size of the warning label, while still keeping the sizing requirements on the product.
- How to use the ad hoc statement that allows for placing labels in a secondary (non-conspicuous) location, without changing existing play yard warnings, which are often places on or under the mattress pad.
- Other changes based on latest ad hoc publications
-

The task group chair will take the results and revise the documents based on the discussions in the task group.
