

U.S. Consumer Product Safety Commission
LOG OF MEETING

SUBJECT: Meeting of the ISO/TC 229 Committee (Nanotechnology)

DATE OF MEETING: October 27-28, 2020

PLACE OF MEETING: Teleconference

LOG ENTRY SOURCE: Joanna Matheson (HSTR)

COMMISSION ATTENDEES: Joanna Matheson (HSTR)

NON-COMMISSION ATTENDEES: Contact ANSI for a complete list.

SUMMARY OF MEETING:

The ISO TC/229 (Nanotechnologies) working group 3 (Health, Safety and Environmental Aspects of Nanotechnologies) met via teleconference for ballot resolution meetings to resolve comments received on the approval for publication of ISO/TS 21633 "Label-free impedance technique to assess the toxicity of nanomaterials in vitro" and ISO/TR 22455 "High throughput screening method for nanoparticles toxicity using 3D cells". Minor comments were received for each work item. The comments were resolved during the meetings and both work items will be submitted for publication shortly.
