Summary of Meeting:

Contact CSA for more details on this meeting.

This was a meeting of the CSA Domestic Gas Ranges Technical Subcommittee (TSC).

The TSC reviewed and discussed a proposed revision to the current oven compartment control requirements. The TSC voted to accept the proposal.

The TSC reviewed and discussed a proposed revision to the labeling of burner rating data. The TSC voted to accept the proposal.

CPSC staff informed the TSC that gas range incident data for the control knobs task group and the TSC review should be available soon. The chair of the CSA Manual Valve TSC, who is also a member of the Gas Range TSC, requested that the data be shared with the Manual Valve TSC that is responsible for the following voluntary standards:

- ANSI Z21.15/CSA 9.1 Manually Operated Gas Valves for Appliances, Appliance Connector Valves and Hose End Fittings.
- ANSI Z.21.104/CSA 9.2 Manual and Automatic Selector devices for use with Gas Fired Appliances
- ANSI Z.21.90/CSA 6.24-19 Convenience Gas Outlets and Optional Enclosures
- CSA 3.16-15 Lever Operated Non Lubricated Gas Shut Off Valves
- CSA 3.11 Lever Operated Pressure Lubricated Plug Type Gas Shut Off Valves
- ANSI Z.21.93/CSA 6.30 Excess Flow Valves for Natural Gas and Propane Gas with Pressure up to 5 PSIG
- ANSI Z.21.69/CSA 6.16 Connectors For Movable Gas Appliances
- ANSI Z.21.41/CSA 6.9 Quick Disconnect Devices for use with Gas Fuel Appliances
- ANSI Z,21.24/CSA 6.10 Connectors for Gas Appliances

The TSC discussed several preliminary proposals regarding the flue discharge arrangements for ovens. The proposals will be formally submitted in the future.

The TSC adjourned and will meet next sometime in February 2021. CSA will send out a doodle poll to finalize the date and time.
