

US Consumer Product Safety Commission
Log of Meeting

Subject: Z21/CSA Technical Sub-Committee (TSC) on outdoor cooking appliances

Date: February 6, 2020

Location: Teleconference

Prepared By: Scott Ayers (sayers@cpsc.gov, 301-987-2030), February 6, 2020

CPSC Attendees: Scott Ayers

Non-CPSC Attendees: Contact CSA for a list of attendees

Summary of Meeting:

Contact CSA for more details on this meeting.

This was a full TSC meeting. The group was only able to discuss open task force items that were previously established. Items discussed included a change to larger vent openings in the cabinet; adding requirements for the LP-gas cylinder enclosure for a built-in grill; new requirements for built-in grills with remote LP-gas supply systems; harmonization of US and Canadian standards on gas lighting; recreational table top grills; and hot surface tests. All of the task force items will be considered at the next meeting. The group ran out of time and could not discuss all remaining items on the agenda.

CSA will send out a doodle poll and schedule a continuation of this meeting for later in February.
