MEETING SUMMARY

Every attendee introduced themselves and Craig Rowlands provided an overview and demonstration of the UL QSAR software tool and presented an organohalogen flame retardant (OFR) read-across case study. Kris Hatlelid provided an update on the CPSC OFR project and Xinrong Chen provided a CPSC perspective of NAS case 1 study. Then the meeting had a group discussion. After the meeting, CPSC provided the speaker a link to our animal testing policy (<https://www.cpsc.gov/Business--Manufacturing/Testing-Certification/Recommended-Procedures-Regarding-the-CPSCs-Policy-on-Animal-Testing/>).
