

**LOG OF MEETING
DIRECTORATE FOR ENGINEERING SCIENCES**

SUBJECT: Meeting of the ASTM F589 Non-Powder Guns Subcommittee

DATE OF MEETING: June 8, 2020

PLACE OF MEETING: Virtual (teleconference)

LOG ENTRY SOURCE: Jill Hurley (ESHF)

COMMISSION ATTENDEES: Jill Hurley (ESHF)

NON-COMMISSION ATTENDEES: Contact ASTM for a full list.

SUMMARY OF MEETING:

The ASTM F15.06 subcommittee, led by the chair, Edward Schultz and secretary, Mike Lukas reviewed the Non Powdered guns ASTM collaboration area, directing member's attention to more recent postings, including a 2005 incident data spreadsheet from the CPSC. One member asked that group members review all relevant data. The secretary requested a current incident data search from CPSC. This data is to be reviewed at the next meeting. Members shared historical data on some of the federal and state laws that led to the warnings required on the product, packaging, and/or instructions within the current F589 Non-Powder Guns standard. The meeting adjourned shortly after discussing the committee's intentions to examine any new data to see what changes to the standard may be necessary.

The next meeting is scheduled for November during ASTM committee week.
