SUMMARY OF MEETING:

The agenda included continued work on the draft standard and future meetings.

CPSC staff responded to questions posed last meeting regarding NEISS data filtering. CPSC staff discussed the micromobility annual report and public service announcement that was released the day prior. The majority of the meeting involved revising the working draft standard. Topics discussed include brake performance, ambient temperatures during testing, maintenance processes, and other standards (European and SAE) that can be referenced.

The task group will reconvene in October to continue discussions.
