Summary of Meeting:

Contact ASTM for more details of this meeting.

This meeting was held to review the most recent candle incident reports and recalls reported in saferproducts.gov and other sources.

The group reviewed 4 CPSC recalls from 12/23/2020, 12/2/2020, 11/10/2020, and 8/19/2020. The group reviewed 2 Health Canada recalls from 1/5/2021 and 12/23/2020 (which was for the same product as the CPSC 12/23/2020 recall). The group believed all the issued identified within the recalls should be caught by the ASTM standards.

The group reviewed 8 incidents posted to SaferProducts.gov dated 1/21/2021, 1/13/2021, 12/31/2020, 12/22/2020, 11/13/2020, 11/10/2020 (2 incidents), and 10/1/2020. The group believed most of the issued identified within the reports should be caught by the ASTM standards. The group wants to further discuss exterior decoration on a candle at the September fire safety task group meeting.

The next candle incident quarterly meeting was scheduled for April 20, 2021 at 10am ET.
