SUMMARY OF MEETING:

This was a meeting of the US Technical Advisory Group (TAG) to discuss activities in the ISO TC 310 for Child Care Articles. The chair of the US TAG:

- Reviewed the ISO TC 310 product category priorities listing, including the results shared back from all the countries and the subcommittees chairs thoughts on an alternative rating system. CPSC staff asked questions about the rating system to understand it better.
- Discussed ISO Chairperson's Advisory Group (CAG) and the responsibility of the CAG (of which the US is a member).
- Discussed formalizing US TAG committee votes (for within the TAG) once the ISO TC priorities are established and confirmed by the TC.

The next meeting of the ISO TC310 is January 24-26. The US TAG/ASTM F15.97 will meet afterward, if needed.
