

## MEETING LOG

**SUBJECT:** ASTM F15.29 F1487 Playground Equipment for Public Use – Small In-Ground Bouncers Task Group Meeting

**FY 24 OP PLAN ENTRY:** Playground Equipment (Public)

**DATE OF MEETING:** 02/21/2024

**LOCATION OF MEETING:** Teleconference (Webex)

**CPSC STAFF FILING MEETING LOG:** Andy Newens (ESMC)

**FILING DATE:** 03/01/2024

**CPSC ATTENDEE(S):** Andy Newens (ESMC) & Khalisa Phillips (ESHF)

**NON-CPSC ATTENDEE(S):** Contact ASTM for the full attendee list

### Summary of Meeting:

The task group (TG) met to continue developing performance requirements for small in-ground bouncers to be proposed as an update to ASTM F1487-21, *Standard Consumer Safety Performance Specification for Playground Equipment for Public Use*.

The TG lead asked CPSC staff to provide in writing the kind of performance requirements they would like to see for small in-ground bouncers to be allowed on public playgrounds. CPSC staff responded that they would review the materials provided by the TG lead. The Subcommittee chair recommended preparing and then sharing with CPSC staff a list of foreseeable hazards associated with small in ground bouncers and possible performance requirements to mitigate the hazards. CPSC staff recommended examining performance requirements in existing voluntary standards.

### Next Steps:

CPSC staff will review the request and determine recommended next steps. The next TG meeting date is TBD.
