

## MEETING LOG

**SUBJECT:** ASTM F15.75 Connected Products Subcommittee (SC) Meeting for Artificial Intelligence (AI)

**FY 24 OP PLAN ENTRY:** Internet of Things (IoT)/Connected Products and Artificial Intelligence (AI)

**DATE OF MEETING:** 5/10/24

**LOCATION OF MEETING:** Teleconference call

**CPSC STAFF FILING MEETING LOG:** Simon Lee

**FILING DATE:** 6/20/24

**CPSC ATTENDEE(S):** Simon Lee, Jr., ESEF, Douglas Lee, EXHR, Suad Wanna-Nakamura, HSPP, Matthew Barzola, ESHF

**NON-CPSC ATTENDEE(S):** For a complete list of attendees, please contact Molly Lynyak at ASTM.

**Summary of Meeting:** The SC continued its ongoing work to incorporate Artificial Intelligence/Machine Learning (AI/ML) considerations into *ASTM F3463-21, Standard Guide for Ensuring the Safety of Connected Consumer Products*. The SC met to finalize the most recently updated F3463 draft. The SC chair shared that the latest F3463 draft is almost identical to the version from April 12<sup>th</sup> except this latest draft added an additional reference to (X1.1) Cybersecurity/Risk Management References appendix. The SC chair briefly mentioned some ML benchmark testing groups to possibly join, and staff also suggested some additional AI/ML resources (AI/ML definition and Internet of Things Advisory Board meeting comments) that they could send to the SC for further knowledge. The SC did not have any other discussion or issues with the current F3463 standard guide draft and will proceed to ballot with the current version.

### Next Steps:

The SC will proceed to ballot the current F3463 draft along with the Ballot Rationale for adding AI. The next meeting to discuss the results of the ballot will be in July.
