

A Safer Generation of Cribs

New Federal Requirements

5 New Federal Requirements

- Traditional drop-side cribs cannot be made or sold: immobilizers and repair kits not allowed
- Wood slats must be made of stronger woods to prevent breakage
- Crib hardware must have anti-loosening devices to keep it from coming loose or falling off
- Mattress supports must be more durable
- Safety testing must be more rigorous

Beginning June 28, 2011 all cribs sold in the United States must meet new federal requirements for overall crib safety.

SafeSleep is a campaign of the U.S. Consumer Product Safety Commission.
