

MEETING LOG

PRODUCT: Motorized Partitions

SUBJECT: ASTM F15.78 Task Group Meeting on the Safety of Motorized Partitions

LOCATION: Teleconference

DATE: October 28, 2022

LOG ENTRY SOURCE: Daniel Taxier (ESMC)

COMMISSION ATTENDEES: Daniel Taxier (ESMC)

NON-COMMISSION ATTENDEES: Contact ASTM for a list of all attendees

MEETING SUMMARY:

The Motorized Partitions subcommittee is developing a proposed standard for motorized partitions aimed at preventing entrapment incidents. Motorized partitions are used in school gymnasiums, offices, or other mixed-use areas to expand or split the space for various events.

The task group reviewed and refined language that had been discussed during previous meetings. Future meetings will focus on discussing new content, including warning label requirements and test methods.

Future task group meetings are planned for November 11 and November 18, 2022 to continue discussion of the draft standard.
