

MEETING LOG

SUBJECT: ASTM F08.27 Hydrogel Projectile Launcher Field Operation Workgroup Meeting

FY 24 OP PLAN ENTRY: Not on the FY24 Op Plan

DATE OF MEETING: 7/30/2024

LOCATION OF MEETING: Webex Teleconference

CPSC STAFF FILING MEETING LOG: Jill Hurley (ESHF)

FILING DATE: 8/1/2024

CPSC ATTENDEE(S): Jill Hurley (ESHF) Virtual,

NON-CPSC ATTENDEE(S): Contact ASTM for a list of attendees

Summary of Meeting:

Objective: Establish a standard practices document for Hydrogel Projectile (HP) Launcher playing fields

The initial meeting of the workgroup for HP launcher playing fields began with a brief overview of the project's intent: to establish industry guidance for both indoor and outdoor venues designed for organized play. The workgroup chair introduced a draft red-line airsoft playing field standard as a foundation. Members then reviewed each section of the airsoft standard to generate ideas for adapting the document for HP Launchers. During this review, working group members raised questions about several sections that will need to be addressed in future meetings.

The next meeting will focus on the definition section.

Next Steps:

The next meeting will be held on August 14, 2024.
