ATV Safety

Stories of real risks while riding an All-Terrain Vehicle
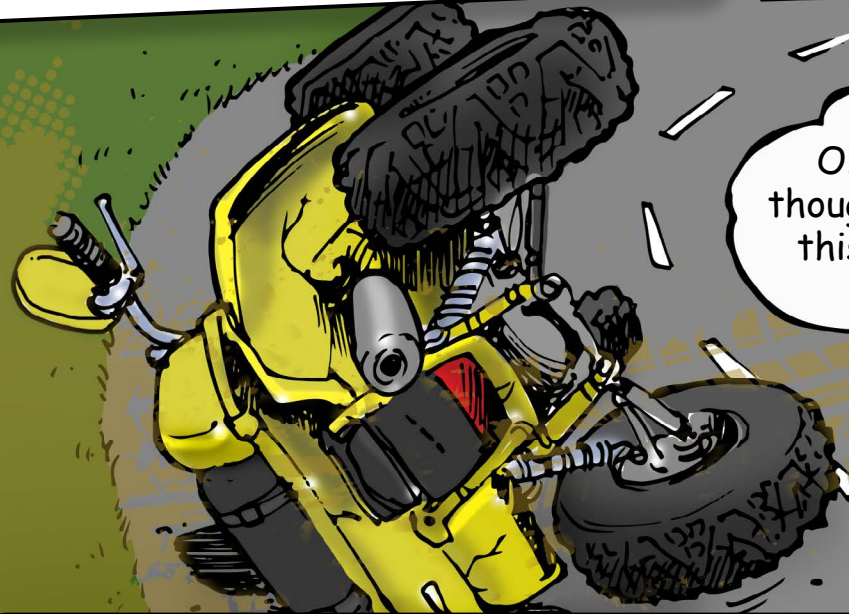

After riding on the dirt trail, he made a risky move.
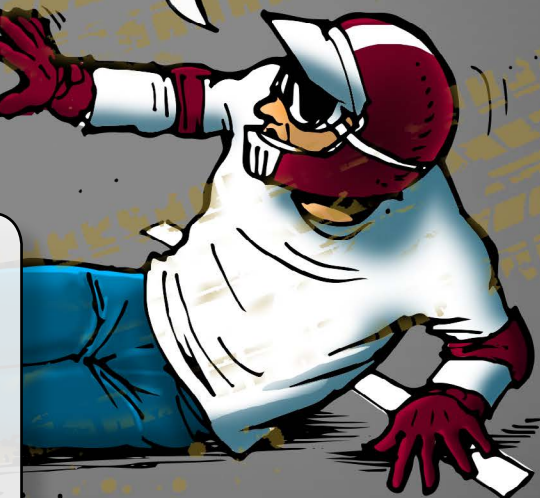

Jim was out on the trail on his new ATV. He was excited to get it out after a long week at school. He opened up the throttle to see what it could do.

He cut down a local road... *and paid the price!*

Oh, man! I should have thought twice before I took this thing onto Route 80.

- ATVs are designed to be driven only on off-road terrain, not paved surfaces.

- ATVs are difficult to control on paved roads and are at risk of overturning, or hitting or being hit by cars and trucks.

- In many states, it is illegal to ride ATVs on paved roads.
