SUPPLEMENTARY INFORMATION:

I. Background

For several years, CPSC has been studying the potential risks associated with crib bumpers. In May 2012, the Juvenile Products Manufacturers Association (JPMA) submitted a petition asking the Commission to initiate rulemaking under sections 7 and 9 of the Consumer Product Safety Act (CPSA) to distinguish “hazardous pillow-like” crib bumpers from “non-hazardous traditional” crib bumpers. In 2013, the Commission voted to grant the petition and provided specific direction to staff. In the FY 2017 Operating Plan, the Commission directed staff to develop a proposed standard under section 104 of the Consumer Product Safety Improvement Act of 2008 (CPSIA). On September 4, 2019, in response to this direction, CPSC staff submitted a briefing package, including a draft proposed rule, for crib bumpers/liners. II. The Forum

A. Topics for Discussion

The Commission would like to hear comments and information from interested parties concerning the potential hazards associated with crib bumpers. The goal of the forum is to hear from the public about their views of the potential hazards associated with crib bumpers and their suggestions for ways to address those hazards. In addition to

these general issues, the Commission invites comments on the following, more specific topics:

1. The utility/benefit of crib bumpers, including, but not limited to:

- a) whether babies suffer head injuries from crib slats without crib bumpers; and
- b) whether babies suffer limb injuries from entrapment in crib slats without crib bumpers.

2. Consumers' understanding of the "Bare is Best" safety messaging related to infant sleep safety, including, but not limited to, whether consumers consider the presence of crib bumpers to be consistent with that messaging.

3. Any current or proposed state laws relating to crib bumpers, and whether and how those laws reflect or conflict with staff's recommendation.

4. Any performance requirements and test methods for crib bumpers (or similar crib accessories) relevant to the identification and elimination of suffocation hazards, including, but not limited to:

- a) Air permeability;
- b) Firmness or the conforming of bumper materials to the facial features of infants, and
- c) Any other aspects of crib bumpers (or similar crib accessories).

5. The potential effects of the preemption of state and local laws addressing crib bumpers.

B. How to Make a Presentation, Attend, or Provide Written Comments

The forum will be held at 10 am on January 22, 2020, at the CPSC's office in Bethesda, MD (see the ADDRESSES section of this notice for more information). The Commission forum will also be available through a webcast, but viewers will not be able to interact with the panels and presenters through the webcast.

- If you would like to make an oral presentation at the forum, please register at [] by January 6, 2020, and submit a summary of your presentation, as well as a brief biography. Presentations should be limited to approximately 10 minutes. The Commission reserves the right to impose further time limitations or other restrictions, if needed, to avoid duplication of presentations.
- If you would like to attend the forum, but not make a presentation, please register at [] by January 15, 2020.
- If you would like to provide written comments, please follow the instructions in the ADDRESSES section of this notice.
