This is to request all reports of injuries at any time from 1/1/2005 to the present ("the relevant period") on any folding treadmill made by any of the following companies: Johnson Health Tech North America Inc. Johnson Industries (Shanghai) Co. Ltd. Johnson Health Tech Co. Ltd. Horizon Fitness AFG (Advanced Fitness Group) Matrix Fitness Vision Fitness By "folding treadmill" I am referring to treadmills where the running surface of the treadmill is hinged at the front of the treadmill to the metal base, and the running surface can be lifted (or "folded") from the rear and locked into an upright position for moving or storing. This type of treadmill has caused injury when being unpacked because the folding treadmills have dangerous pinch points near where the running surface is hinged to the frame. The running surface and frame also are connected by air springs that force the two parts apart and can trap fingers in the pinch point. If you are not able to search for, or segregate
out, reports of injuries on folding treadmills from injuries on treadmills generally, then this request if for all injuries on treadmills manufactured or designed by the above companies during the relevant period. Thank you for your assistance. (Date Range for Record Search: From 01/01/2005 To 08/06/2019)

19-F-00421 In the page 2451 of the May 8, 1995 edition of the Federal Register, the CPSC provides an update on its activities relating to methylene chloride. The update includes the following comment: "In May, 1995, the staff is scheduled to transmit a briefing package to the Commission concerning proposed revisions of the warning label." I respectfully request that briefing package. Please note that the agency contact on that project was listed as Laureen Burton, Project Manager, Consumer Product Safety Commission, Directorate for Health Sciences. 2. I am trying to obtain a letter drafted by the CPSC staff in 1995. That letter was referenced in a 2012 correspondence from CPSC toxicologist Melanie Biggs. Ms. Biggs was responding to correspondence from the California Department of Health requesting that the CPSC revisit its labeling guidance in light of the recent deaths of a group of bathtub refinishers. Ms. Biggs referenced the CPSC's 1995 letter as follows: "The CPSC staff worked with industry and determined the best way to inform consumers of the hazards associated with methylene chloride-containing products was through improved labeling. CPSC informed industry of the enforcement policy and labeling in a letter in 1995." (Date Range for Record Search: From 01/01/1995 To 12/31/1995)

19-F-00488 Is there a way to get Oregon specific ATV Injury and death detail for the past 5 years? The latest 2017 Annual Report (published on 3/1/19) includes data nationwide which is great but I'm looking for greater detail for the State of Oregon specifically. I would like all injury and death data for all ages; but of high-importance, is data pertaining to youth (under age 16). Also, I'm assuming there's no way to discern between those incidents that occur on private property vs public property but it would be great if there were delineate between the two. It helps us as our program is based on public property vs private property. It would also be great if I could get this information by Mid-October 2019 if at all possible. (Date Range for Record Search: From 9/19/2014 To 9/19/2019)
