24-F-00769	09/23/2024	-	FOIA	This is a request for records under the Freedom of Information Act. I am requesting documentation for the CPSC National Electronic Injury Surveillance System (NEISS) related to changes in which hospitals are included in the survey sample over time. I am specifically interested in the NEISS-All Injury Program. The NEISS public-use dataset contains identification numbers for primary sampling units (PSUs), which refer to specific hospitals. However, any given PSU may refer to two or more hospitals over time, because certain hospitals leave the sample and are replaced by others. I am therefore requesting any documentation that would allow me to identify the dates of changes (hospitals entering or leaving the sample) by PSU number for the years 2001 through 2021. I would also like to request a waiver of all fees in that the disclosure of the requested information is in the public interest and will contribute to non-commercial scientific research for peer-review publication. I am an academic researcher and will be using these data to help asses changes in injury rates over time.	-	Granted in Full	09/27/2024
