 Commissioner Dana Baiocco

ITEM:

Final Rule: Children's Products, Children's Toys, and Child Care Articles: Determinations Regarding Lead, ASTM F963 Elements, and Phthalates for Engineered Wood Products (Briefing package dated June 6, 2018, OS No. 4115)

DECISION:

The Commission voted unanimously (4-0) to approve publication in the *Federal Register*, as drafted, a final rule determining that certain untreated and unfinished engineered wood products (EWPs), specifically, particleboard, hardwood plywood, and medium-density fiberboard, made from virgin wood or pre-consumer waste wood does not contain lead, the ASTM F963 elements, or specified phthalates, at concentrations that exceed the required limits under the CPSC's statutes for children's products, children's toy, and child care articles. Based on these determinations, the specified EWPs would not require third party testing for compliance with these requirements.
