ITEM:

Draft Notice of Proposed Rulemaking: Children's Products, Children's Toys, and Child Care Articles: Determinations Regarding Lead, ASTM F963 Elements, and Phthalates for Engineered Wood Products
(Briefing package dated September 27, 2017, OS No. 4061)

DECISION:

The Commission voted unanimously (5-0) to approve publication in the *Federal Register*, as drafted, a notice of proposed rulemaking for determinations that certain untreated and unfinished engineered wood products (EWPs), specifically, particleboard, hardwood plywood, and medium-density fiberboard, made from virgin wood or pre-consumer waste wood, would not contain lead, the ASTM F963 elements, or specified phthalates at concentrations that exceed the required limits under the CPSC's statutes for children's products, children's toys, and child care articles. Based on the proposed determinations, the specified EWPs would not require third party testing for compliance with these requirements.

For the Commission:

Alberta E. Mills
Acting Secretary
