Evanston, IL 60201

Dear Tek:

As a follow-up to the June 4, 2024 letter I sent regarding incidents with room air conditioners falling out of windows, I am providing the attached table summarizing relevant data found in a search of the Consumer Product Safety Risk Management System (CPSRMS) database for incidents occurring within the timeframe 7/1/2014 through 6/30/2024 based on reports received as of 6/30/2024, using the product code for Room Air Conditioners (0381).¹ If you have any questions, please contact me at atrotta@cpsc.gov.

Thank you for your continued consideration of this issue.

Sincerely,

Andrew Trotta
Director
Division of Electrical Engineering and Fire Sciences
Directorate for Engineering Sciences
