**THE INTERAGENCY AGREEMENT BETWEEN  
THE U.S. CONSUMER PRODUCT SAFETY COMMISSION  
AND THE CENTERS FOR DISEASE CONTROL AND PREVENTION  
10FED1011883-01**

This Interagency Agreement modification between the Centers for Disease Control and Prevention (CDC) and the U.S. Consumer Product Safety Commission (CPSC) covering a special study using the National Electronic Injury Surveillance System (NEISS) to collect data on all nonfatal firearm injuries treated in NEISS hospital emergency departments to be used to provide national estimates of nonfatal firearm injuries and to characterize injured person and circumstances of the injury incident.

This agreement covers a special study entitled: “The NEISS Firearms Injury Special Study” which is outlined below.

**I. DESCRIPTION OF SERVICES**

**Background:**

The Consumer Product Safety Commission (CPSC) will collect surveillance data on all firearm injury cases initially treated in emergency departments (EDs) in 97 NEISS sample hospitals. This special study, called the CDC/NEISS Firearm Injury Surveillance Study (FISS), has been in place since 1992. This study provides data abstracted from medical records on persons with nonfatal firearm injuries treated in all NEISS hospital EDs. The data are used to track temporal trends in nonfatal firearm injury rates and characterize patterns of nonfatal firearm injuries in the United States by demographics of injured persons and by intent of injury and other circumstances of the injury incident. Data are obtained on intent of injury, type and caliber of firearm used (handgun, rifle, shotgun, BB/pellet gun, other), victim-suspect relationship, alcohol/drug-relatedness, physical fight, argument, job-relatedness, mode of transport to the ED, and the core NEISS data elements (e.g., age, sex, and race/ethnicity of the injured person, principal diagnosis, primary body part affected, and place of occurrence). This special study provides more detail on injury circumstances than are provided by the NEISS-All Injury Program.

**Purpose:**

This IAG provides for the continuation of data collection on all nonfatal firearm injuries treated in NEISS hospital EDs.

**Deliverables:**

The Consumer Product Safety Commission will deliver to the National Center for Injury Prevention and Control, Office of Statistics and Programming (OSP), final edited data and associated codebooks and other database documentation for all data elements in the CDC/NEISS Firearm Injury Surveillance Study. These data will be delivered by means of a secure data file and will be provided to CDC no later than **September 30, 2011**. The Office of Statistics and Programming after performing final editing and quality assurance reviews of the data will provide the final analysis data set to the Division of Violence Prevention (DVP), Epidemiology and Surveillance Branch (ESB), National Center for Injury Prevention and Control. If the Office of Statistics and Programming should encounter any errors in the final edited data or other data issues, OSP will contact CPSC immediately to resolve these matters.

**Methods:**

**1. Data collection**

- a. **Description:** Continue to collect data on cases of all firearm injury seen at all NEISS hospitals.
- b. **Sample:** All hospitals participating in NEISS.
- c. **Case definition:** All firearm injury cases, including those that were unintentional, assaults, self-harm, or of undetermined intent
- d. **Schedule:** The data collection will continue till the end of **September 2011**.
- e. **Analysis** of the data will be done by CDC and results shared fully with CPSC.

**II. DURATION OF AGREEMENT**

This funding period of this agreement is approved from the date of signature for both agencies through **September 30, 2011**. The period of performance is from the date that both parties sign the agreement through September 30, 2014. Approximate delivery date for calendar year 2011 data is **September 30, 2011**.

**III. ESTIMATED COSTS**

CDC will transfer \$49,303.00 to CPSC in **FY 2011** to support CPSC’s continuing CDC/NEISS Firearm Injury Surveillance System data collection activities. Estimated costs are \$49,303.00. This cost estimate is broken down into the following sub-categories:

Data collection and provision of data to CDC	\$49,303.00
Total	\$49,303.00

**IV. FUNDING**

All funds provided by CDC in this agreement must be obligated by the performing agency by the end of the fiscal year in which the funds expire. Any unobligated but expired funds may not be used to fund services in subsequent periods. The CDC Financial Management Office (FMO) must be notified of any unobligated funds pertaining to this agreement at least 15 days before the end of the fiscal year so that the agreement can be amended to reduce the obligated amount when appropriate. The notification must be provided to the address cited below (in paragraph V). This agreement is subject to fund availability.

**V. ACCOUNTING AND BILLING INFORMATION**
